PROFESSIONAL SUMMARY

Multimedia Engineer with experience in web development and UX/UI design. Proficient in modern frameworks such as Angular and Astro. Strong technical foundation in HTML, CSS, JavaScript, and TypeScript. Certified in JavaScript, WordPress, Figma, UX, Angular, Astro, Git, and Scrum. Demonstrated ability to design and implement interactive applications with a strong focus on user experience and code quality. Fast learner with excellent problem-solving skills and experience working in agile environments.

WORK EXPERIENCE

Intern - Frontend Developer

Alliance Bioversity International & CIAT | Cali, Colombia | September 2025 – February 2026

- Developed an interactive campus navigation application (Campus Map) using Angular 20.2.0, PrimeNG, and Tailwind CSS 4.1.13.
 - Implemented unit testing with Jest and quality control using ESLint.
 - Designed UI/UX components and visual assets utilizing Figma, Affinity, Photoshop, Illustrator, and Inkscape.
 - Collaborated with a multidisciplinary team in an agile environment using Git for version control.
-

FEATURED PROJECTS

Campus Map - Interactive Campus Navigation Application

2025 – 2026

- An internal navigation web application for the CIAT campus.
- Technologies: Angular, PrimeNG, Tailwind CSS.
- Features: Interactive routing, points of interest, responsive design.

EndanSys - Endemism Monitoring System

2025

- A geospatial data analysis and visualization system for identifying endemic species.
- Participated in the design and implementation of the system.

GeoCluster - Geographical Clustering Tool

2025

- A spatial data analysis tool utilizing clustering techniques and interactive visualization.
- Collaborated on design and implementation.

Proyecto de Grado - Climate Voice Chatbot Framework

2025

- A voice interaction system featuring natural language processing and real-time climate data.
 - Integrated data from the Environmental Observatory of Comuna 22.
-
